**CRIME SCENE UNIT SUPERVISOR**  
**Bryan, Texas**

The City of Bryan Police Department is seeking qualified candidates for Crime Scene Unit Supervisor. This position oversees subordinates engaged in the processing of crime scenes which includes the documentation, processing, collection and analysis of evidence, and completing necessary paperwork. The Supervisor's duties include, but are not limited to administrative and operational tasks, as well as responding to crime scenes in a working capacity.

**Minimum Requirements:**

- Bachelor's degree with major coursework in chemistry, biology, forensic science, criminal justice or similar field of study plus at least four (4) years of experience in crime scene processing or other related forensic science discipline; or an Associate's degree with major coursework in chemistry, biology, forensic science, criminal justice or similar field of study plus at least six (6) years of experience in crime scene processing or other related forensic science discipline.
- Must possess some previous recognized training in crime scene processing, latent fingerprint processing, major and advanced death investigations, photography, blood splatter interpretation and forensics.
- Must possess some previous leadership, supervisory, or management experience.

**To Apply:**

A City of Bryan online application is required. For a detailed job description and to apply, visit the link below. Please attach a resume at the time of application. You will receive an online confirmation number upon successfully applying.
