

University of North Texas Police Department

We are looking for current TCOLE peace officers, or those currently in a TCOLE peace officer academy, or current out of state peace officers. *Multiple positions.*

Working with the University of North Texas Police Department will be an experience you won't get elsewhere. The UNT campus, including our police department, is a tight-knit and inclusive community that supports our diverse students, faculty and staff. Many of our officers are UNT graduates or students because we put a high value on education and training. That emphasis led our department to a rare dual accreditation, showing both our concern for our community and our dedication to professionalism.

Our 45 state certified police officers enforce municipal and state laws, and UNT policies, while providing service to campus 24 hours a day, every day of the year.

The department has full law enforcement jurisdiction within the UNT campus, city of Denton, and any county where UNT maintains property. We proudly serve these areas, taking time to get to know our community and partnering with them to provide a safe environment for their learning and professional development.
